#### **What's in your iPod?**

Here's what I have in heavy rotation right now: three of Anne E. DeChant's CDs (a MUST!); Ray Charles, "Genius Loves Company"; Norah Jones' "Feels Like Home"; and "Elvis (1956)."

**What household chore do you hate the most?** All of them. Sorry, Mom!

**What movie star have you always wanted to be?** Harrison Ford. I mean, come on, Han Solo — does it get any cooler?

**What DVDs would you save in a house fire?** I am a total movie geek. So I have to go classics . . . "Casablanca," "Tommy Boy" and all three seasons of "24."

**What makes a great first date?** A good, fun, flowing conversation with few awkward moments.

#### **Which would you prefer — money or fame?**

Hmm, I don't know how to answer that because either would change the essence of who I am. But in the end, I simply would love to be in a position to do what I love without

worrying about paying the bills.

#### **What are you reading right now?**

I mostly read magazines. I try to continually educate myself on my art and what is "next."

**Favorite TV shows?** "24," "Lost," "Alias," and I am a total reality-TV junkie.

**Which celebrity do you most closely resemble?** I am told Andre Agassi when I shave my head clean.

**What would you want as your last meal on Earth?** A giant Chipotle steak burrito with everything on it.
